A3 FLATBED PRINTER

COLOUR INK-JET PRINTER

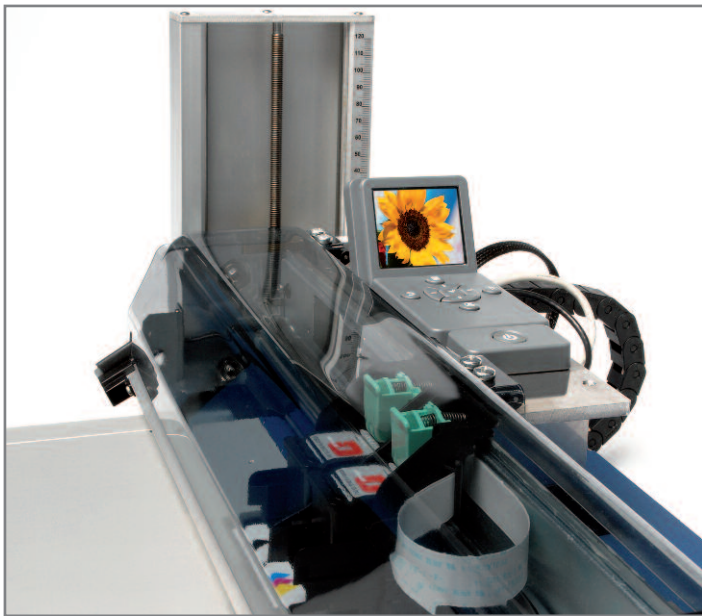

Designed for **professional applications**, the new Olivetti full colour A3 flatbed ink-jet printer **prints on a wide range of media**, up to the A3 format. Suitable for cartridges using water-based, solvent-based, edible or pigmented ink, this printer is the solution for printing on paper, plastic, wood, food and other media. For each application a **specific ink, printhead** and firmware is available to deliver the best printing results.

The height of the **print bar is adjustable**, to allow printing on media up to 120 mm thick. A **compact model** weighing just 19 kg, the A3 flatbed printer can be used in shops and market areas where space is limited. Its disposable single-use ink cartridges, guarantee of print quality, are easy and fast, thus allowing to renew the printer every time.

To set up print jobs and configure the device using **Olivetti proprietary software**, the printer can be connected to a PC via the USB 2.0 port.

Stand alone printing is also allowed thanks to the **2.4" LCD console display** and menu, which will preview and print images from a compatible USB pen drive connected to the additional USB 1.1 port.

With its huge engineering skills and chemistry expertise, **Olivetti offers customers the solutions they need** to make any printing application up and running.

TECHNICAL SPECIFICATIONS

GENERAL	Printing technology	Olivetti proprietary thermal ink-jet	Standalone printing mode	From a connected compatible pen drive	
	Printing system	Two printheads: 1 black and 1 three-colour (CMY)	Connectivity	High Speed USB 2.0 to PC, USB 1.1 to pen drive	
	Printing area	420 x 297 mm (A3 size)	Additional feature	Optical sensor detection of any obstacle present in the printing area	
	Media height	Up to 120 mm			
	Cartridges management	Different cartridges, containing specific inks for the addressed applications, are correctly managed by dedicated printing SW. Dedicated Firmware the correct print-head in use	Dimensions (WxDxH)	685 x 500 x 285 mm	
	Operator panel	2.4" LCD offering a menu-type interface and image preview when images are stored on the compatible USB pen drive connected to the printer	Weight	19 kg	
INKS	Water-based	Dye and pigment-based for porous media printing, black and spot colours: - All paper types, cardboard, wood, leather...	Solvent-based	For photo quality printing on ABS, PVC and polycarbonate, with excellent results on other different polymeric media: - ID and fidelity cards printing and personalization - Cables and wires coding - Product decoration	
		Pigment-based for textile printing (after printing heat curing is required): - Cotton and viscose			
		Food grade, synthetic and natural-dye based Kosher and FDA certified: - Food and cosmetics decoration and coding
